

LEARN TO MARKET YOURSELF

CAREER EXPLORATION/ASSESSMENT - OCTOBER 6, 1-2 P.M.

A career assessment can help students explore academic programs and career options to develop a personal career plan. After completing the assessment, discuss the results with one of our career counselors.

RESUME WRITING & COVER LETTERS - NOVEMBER 15, 1-2 P.M.

A strong resume and cover letter is the essential first step in selling yourself to a potential employer while setting you apart from other candidates. In this session, we'll help you get started on a resume and cover letter that will successfully market your education, skills, and experience.

INTERVIEW - DECEMBER 8, 1-2 P.M.

A job interview is often the most nerve-wracking experience in the hiring process. In this session, we'll offer specific suggestions on how to market yourself, including the most effective ways to reach a target audience, follow-up strategies beyond the traditional thank-you letters, and how to develop a high-impact two-minute pitch that tells who you are and what you have to offer.
